We Are Here For You!

Dear Valued Patient,

COVID-19 is in the news everywhere, and we are closely monitoring the situation. We're reaching out to assure you that you are safe at Gibbs Dentistry. Beginning May 8, 2020 – North Carolina Governor Cooper has relaxed social distancing measures, and we are slowly opening for dental services.

We already, as a daily practice, assure universal precautions as outlined by the Centers for Disease Control (CDC) and OSHA standards of infection control. Safety is always our number one focus – both for our patients and our employees. Our high standard of care ensures that your trust and safety are never compromised.

We are taking extended measures to further protect all our patients and team with the following additional protocols:

- Our office will communicate with you ahead of your appointment to ask some screening questions. You'll be asked those same questions again when you are in the office.
- In compliance with the recommendations for public health, anyone with a cough or fever should call to reschedule their appointment and should stay home. We will be happy to reschedule your appointment for a later date
- Before your appointment, we ask you to stay in your car instead of the reception room until we're ready to seat you in your personal, sanitized operatory. Simply call us when you arrive, and we will let you know when we're ready for you.
- Upon entering Gibbs Dentistry, you will be asked to sanitize your hands. You will find hand sanitizer in the reception area. Furthermore, feel free to use our restroom to wash your hands with soap and water.
- At the beginning of every appointment, you will be asked to pre-rinse with hydrogen peroxide solution to reduce any bacterial and/or viral load intraorally.
- Additionally, we are requesting you again to sanitize your hands before re-entering the business areas

You can be assured safety measures at Gibbs Dentistry will continue to evolve as more information develops. We look forward to seeing you again and are happy to answer any questions you may have about the steps we take to keep you, and every patient, safe in our practice.

Stay well, hydrate, eat nutritiously, and get plenty of sleep. We look forward to serving you.

Warm Regards,

The Gibbs Team
